

## What are cookies?

A cookie is a tiny file that's saved to your computer when you visit our site. It reminds us of your settings and preferences when you visit us again, to give you a better online experience. It's up to you whether you allow cookies or not, but if you don't want them, you'll need to block them in your browser settings.

## Why should I allow cookies?

By allowing cookies, you'll get the best experience from our website. We may also use Visitor Analytics to see how many people visit our website and this also requires cookies.

## What if I block cookies?

If you decide to block cookies, this may stop certain features of the site working properly. This will restrict what you can do on our site although most features should still work ok. If you accept the limitations and would still like to block cookies, please follow the instructions for your browser in the section below.

## How can I block or allow cookies?

Most browsers are set by default to accept cookies, but you can change your settings to block some or all cookies if you prefer. If you don't like how this affects your online experience, it's just as easy to change things back again. Choose your browser from the list below...

## Google Chrome

1. On your computer, open Chrome.
2. At the top right, click **More**  **> Settings** .
3. At the bottom, click **Advanced** .
4. Under "Privacy and security," click **Site settings** .
5. Click **Cookies** **> See all cookies and site data** **> Remove all** .
6. Confirm by clicking **Clear all** .

## Safari

In the Safari app on your Mac, choose **Safari > Preferences** , click **Privacy** , then do any of the following:

1. *Prevent trackers from using cookies and website data to track you:* Select "Prevent cross-site tracking".  
Cookies and website data are deleted unless you visit and interact with the trackers' websites.
2. *Always block cookies:* Select "Block all cookies".  
Websites, third parties and advertisers can't store cookies and other data on your Mac. This may prevent some websites from working properly.
3. *Remove stored cookies and data:* Click Manage Website Data, select one or more websites, then click Remove or Remove All.  
Removing the data may reduce tracking, but may also log you out of websites or change website behaviour.
4. *See which websites store cookies or data:* Click Manage Website Data.

## Firefox

1. Click the **menu** button located in the top right as three horizontal lines.
2. Click the **Options** menu item.
3. Click the **Privacy & Security** menu item.
4. Choose your preferred Browser Privacy/Cookie settings:
  - **Standard**
  - **Strict**
  - **Custom**

## Microsoft Edge

1. In Microsoft Edge, go to **More > Settings** .
2. Select **View advanced settings** .
3. Under **Privacy and services > Cookies** , choose the right option for you:
  - **Block all cookies** doesn't let any website save cookies to your computer.
  - **Block only third party cookies** allows cookies from the website you're on, but blocks cookies from external web services, like from ads embedded on webpages you visit.

## Internet Explorer

1. To delete cookies:
  1. In Internet Explorer, select the **Tools** button, point to, and then select **Delete browsing history** .
  2. Select the **Cookies and website data** check box, and then select **Delete** .
2. To block or allow cookies in Internet Explorer 11 for Windows 10
  1. In Internet Explorer, select the **Tools** button, and then select **Internet options** .
  2. Select the **Privacy** tab, and under **Settings** , select **Advanced** and choose whether you want to accept, block, or be prompted for first-party and third-party cookies.

## iOS (Safari)

To delete or block cookies choose one of the following:

1. To choose whether Safari blocks cookies, tap **Settings > Safari** , then turn on **Block All Cookies** .
2. To clear your history and cookies, go to **Settings > Safari** , and tap **Clear History and Website Data** . Clearing your history, cookies, and browsing data from Safari won't change your AutoFill information.
3. To clear your cookies and keep your history, go to **Settings > Safari > Advanced > Website Data** , then tap **Remove All Website Data** .

## Android (Chrome)

1. On your Android phone or tablet, open the Chrome app.
2. At the top right, tap More  > **Settings** .
3. Tap **Site settings** > **Cookies** .
4. Turn **Cookies** on or off.
